

Scalix - Feature #60021

implement automated fullResync

10/22/2015 07:12 AM - Alexey Bobyr

Status:	Resolved	Start date:	10/22/2015
Priority:	Normal	Due date:	10/22/2015
Assignee:	Alexey Bobyr	% Done:	100%
Category:	Scalix Wireless	Estimated time:	0.00 hour
Target version:	Scalix 12.6		
Operation System:	--		
Description			
It would be better when cache in database is not updated automatically run fullResync instead of manually executing url http://site.com/api/user/control/fn=fullsync			

History

#1 - 10/22/2015 07:14 AM - Alexey Bobyr

Added starting in new thread fullResync for some cases (if message not found)
so it wont be constant but when it needed it will resync user mailbox

#2 - 08/05/2016 09:41 AM - Alex I

- Subject changed from *implement automative fullResync* to *implement automated fullResync*
- Category changed from *Scalix API* to *Scalix Wireless*
- Operation System set to --
