|---|--------------|------------------------|------------|
| Status: | Resolved | Start date: | 12/04/2018 |
| Priority: | Normal | Due date: | |
| Assignee: | Alexey Bobyr | % Done: | 0% |
| Category: | Scalix API | Estimated time: | 0.00 hour |
| Target version: | 12.8 | | |
| Operation System: | -- | | |
| Description | | | |
| Add virtual folders to CardDav: System Directory - SWA -> AddressBook -> "System Directory" - all users in server. Personal Directory - SWA -> AddressBook -> "Personal Directory" - personal contacts. | | | |
| Customer may disable those folders by setting false for this config option | | | |
| <code>platform.dav.ldap.addressbook.enabled=false</code> | | | |
| to minimize connections to Scalix Ldap server (ldapmapper) all results are cached. By default for 10 min | | | |
| <code>platform.dav.ldap.addressbook.cache_timeout=10</code> | | | |
